

General Specifications

Designed for educational gymnastic programmes especially with small children.

All foam shapes are covered with tough fire retarded vinyl cover for indoor or outdoor use. Colours vary between panels to give visual interest to young children. All seams are double stitched. Heavy-duty plastic zips allow easy replacement of damaged foam or cover. The foam is 23-32kg/m3 premium grade polyurethane to give shape and stability to the shapes. Other shapes made on request.

1

- A20-1 **Cylinder, 900 x 600mm D**
- A20-2 **Cylinder, 900 x 500mm D**
- A20-3 **Cylinder, 900 x 400mm D**
- A20-4 **Cylinder, 900 x 250mm D**

2

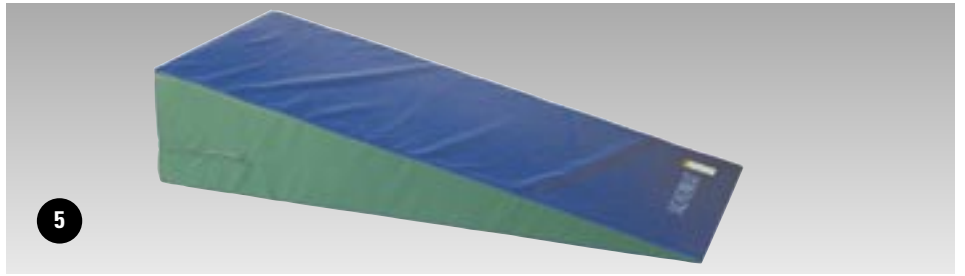

- A20-7 **Steps, 750 x 900 x 600mm**
3 steps x 250mm wide
- A20-8 **Steps, 1200 x 900 x 500mm**
3 steps x 400mm wide

3

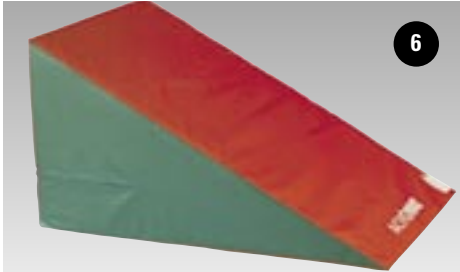

- A20-12 **Hexagon,**
900mm Across the Flats x 500mm

A20-14 **Sphere, 760mm D**
 A20-15 **Sphere, 600mm D**
 A20-16 **Sphere, 450mm D**

5

A20-18 **Wedge,**
1800 x 900 x 12 to 400mm

6

A20-20 **Wedge,**
1200 x 900 x 12 to 700mm

7

A20-19 **Wedge,**
700 x 900 x 12 to 400mm

8

A20-17 **Wedge,**
750 x 900 x 12 to 250mm

9

A20-61 **Wedge - Folding,**
1800 x 1200 x 600mm

High density foam covered with tough fire retarded vinyl. Wide enough for children to roll down sideways. Designed for kindergym, school and gymnastic programmes. Wedge folds to form a padding box - 1200mm x 900mm x 600mm. Touch tape holds it closed.
