

**General Specifications**

Padding consists of 30mm Acrolite closed cell foam covered with blue needle punched polyolefin fibre carpet fabricated to suit the shape required. Standard height - 2000mm. Fixings vary to suit the application and structure of the building. Padding other than standard sizes can easily be made. Contact Acromat for more details.

Vinyl covered padding is available if required.

**Design and Installation**

Acromat's trained engineers will design and supply all fittings required for the installation of the padding. Padding can be designed and manufactured to improve safety in almost any situation.

**Warning**

To reduce the risk of injury, padding must be provided where columns or other obstructions protrude into the building and where runoff areas around games courts or activities are insufficient.

**1**  
A23-1 **Column Padding - Flange Only**  
Padding is fabricated to suit the shape and size of universal columns. Can be installed by customer, no tools required. Standard size: up to 300mm wide flange.

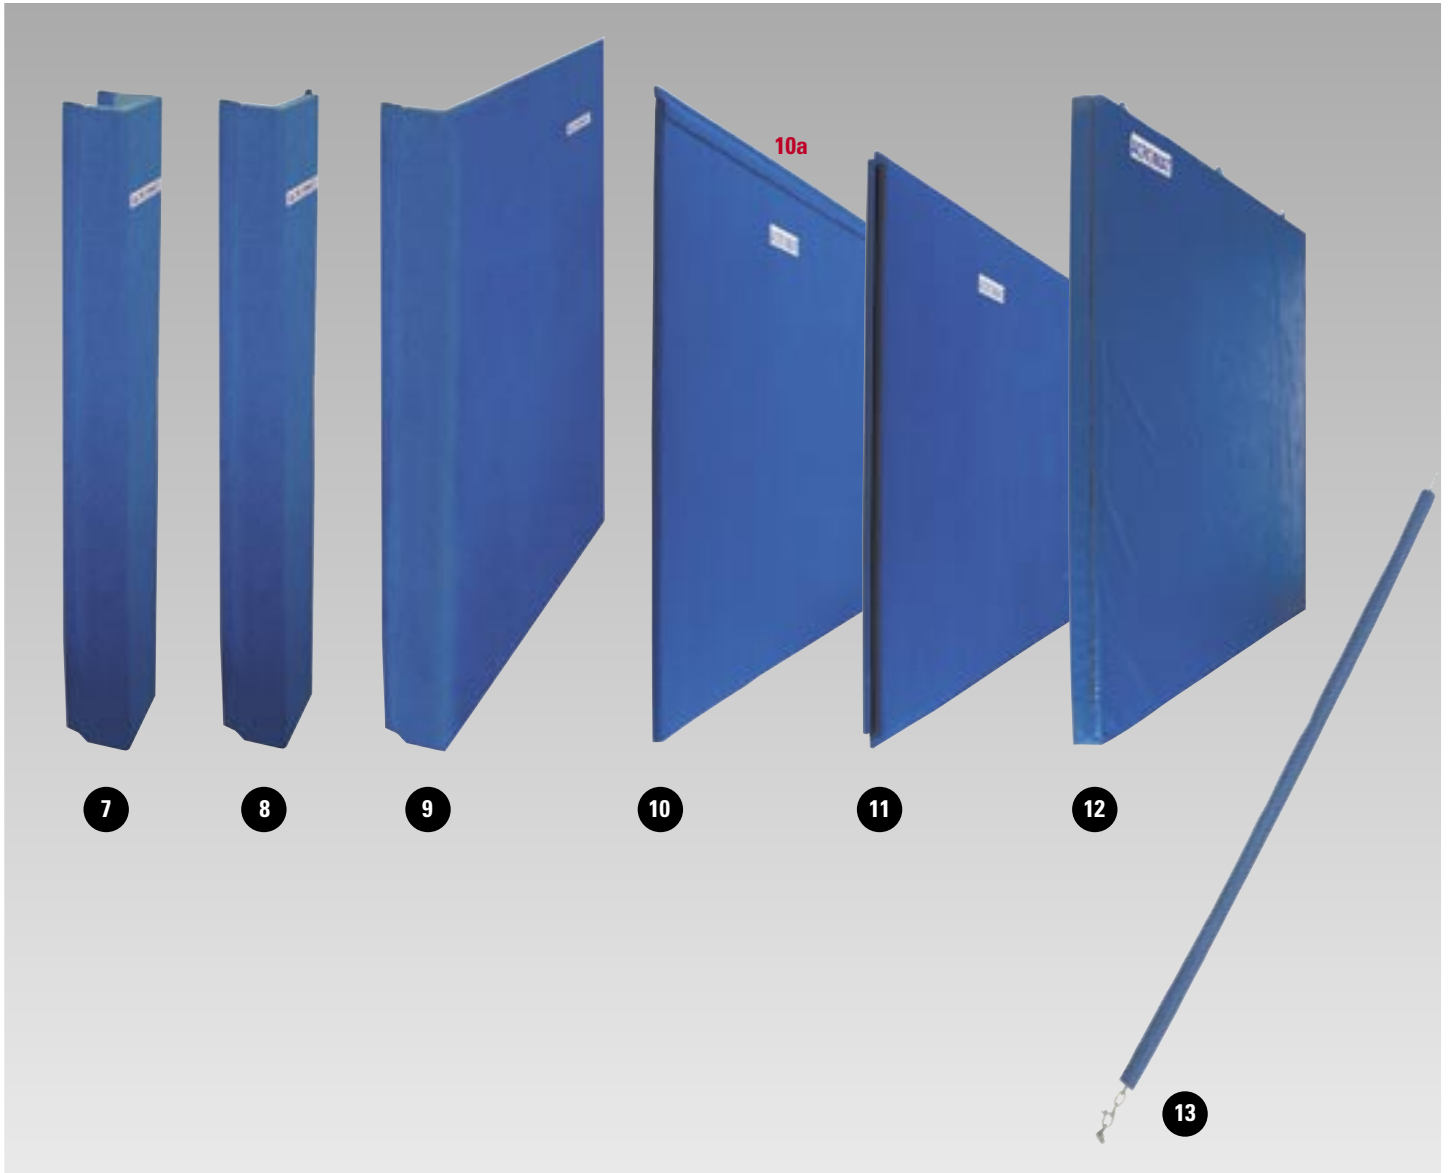

**2**  
A23-2 **Column Padding - Flange with Wall Behind**  
Used where a column flange protrudes up to 30mm in front of the wall. Padding is fixed to the wall. Standard size: up to 300mm wide flange.

**3**  
A23-3 **Column Padding - Flange and Wall**  
One side of padding is fabricated to suit the flange and the other side is fixed to the wall. Standard size: up to 300mm wide flange.

**4**  
A23-11 **Duct and Pipe Padding**  
Padding fixed to the wall curves around in front of the obstructions. Standard size: up to 400mm wide x 400mm deep.

**5**  
A23-10 **Column Padding - Circular,**  
Touchtape fixings allow installation by customer, no tools required. Standard size: up to 400mm D

**6**  
A23-20 **Column Padding - Rectangular**  
Touchtape fixings allow installation by customer, no tools required. Standard size: up to 200 x 200mm.

**7**  
 A23-40 **Column Padding - 'U' Shape**  
 'U' shape padding fixed to the wall.  
 Standard size: up to 100 x 200 x 100mm.

**8**  
 A23-30 **Corner Padding**  
 'L' shape padding fixed to the wall.  
 Standard size: up to 100 x 100mm.

**9**  
 A23-31 **Wall and Corner Padding**  
 'L' shape padding fixed to the wall.  
 Standard size: up to 100 x 1000mm.

**10**  
 A23-50 **Wall Padding - Removable, 3000 x 2000 x 30mm**  
 Carpeted padding fixed to the wall with touch tape edging A23-51. When not required as wall padding it can be removed and used as exercise or tumbling mats.

**10a**  
 A23-51 **Touch Tape Edging - Carpeted**  
 Used to fix carpeted padding to the wall or provide a neat finish and permanently fixes carpeted landing mats, tumbling runs or floor areas to the floor. Touch tape hook 50mm wide sewn to one edge attaches onto carpet. Pocket sewn in the other edge holds a steel strip for fixing to the wall or floor.

**11**  
 A23-60 **Wall Padding - Fixed, 3000 x 1700 x 30mm**  
 Carpeted padding. Pockets sewn in the carpet on all sides holds steel strips for fixing to the wall.

**12**  
 A23-63 **Wall Padding - Vinyl, 3000 x 2000 x 100mm**  
 Used when vinyl covered wall padding is required or where it is removed and handled regularly. Touch tape straps A23-64 fixed to wall holds the vinyl covered mat A8-173 in place.

**13**  
 A23-115 **Cable Padding - Carpeted, 2000mm Long**  
 Carpet wraps around the cable and is held in place by 25mm wide touch tape.
