

S 100 AUDITORIUM SEATING

The S100 is designed for auditoriums where there is a height restriction for tiered seating. Removable chairs are used due to the stored height restriction between the platforms. Standard design platform will allow a minimum rise of 150mm. Special design platform will allow a minimum rise of 100mm.

1 and 2

- Carpeted platforms
- Painted risers - no chairs
- Fixed unit automatic extension and retraction

S100 Platform Low Rise System
