

# S 80 AUDITORIUM SEATING

This system is designed for auditoriums where height is restricted. Two rows of seats are fitted to each platform. Due to the two rows, site lines are not as good as the S60 platforms but better than seating on a flat floor. Seats are selected from the S60 range.

## 1 and 2

- Carpeted platforms
- Painted risers - Type 61 seat with writing tablet
- Fixed unit automatic extension and retraction

## S80 Platform Type 63 Seats
